Hmmmm....Both MA0003590 (Somerville facility) and MA0028941 (Boston facility) have a change in operator which will be finalized shortly. Only MA0028941 needs to submit reapplications forms. For MA003590, they are administratively covered by the 2007 permit as they submitted timely and complete reapplications (complete letter sent on April 24, 2012).

Let me know if you have any further questions. Also, feel free to give me her phone number and I'll check to see if she needs any further info. from me.

Tx,
O.

She wanted something else from me but mentioned that they had contacted you about a transfer. It's permit number MA0003590.

Hi Michele,

I don't recall getting any calls from Keolis. I've been in touch with the MBTA and MBCR and the paperwork for change in operator is done and waiting for Ken Moraff to sign.

One of the of the facilities is all set and does not owe us any paperwork. The other one (MA0028941, Boston) does need to send in Reapplications, due by December 30, 2014. This is probably what she called about.....if you forward me her name and number, I'll call her back.

I'll keep you posted.
Thanks,
Olga

Hi Olga-

I received a call from the compliance sub-contractor for the new MBTA commuter rail operator, Keolis. She mentioned that she had contacted you for forms so they could transfer the permit. Did you get a chance to do that?

Thanks,
-M
